

# Wyndmaster 320

## Two Spindle Automatic Take-up System

### FEATURES

- Automatic Cut and Transfer
- Switch Selectable Overwind / Underwind Operation
- Non-Contact PC Loop Control
- Tangential Product Feeder
- Adjustable Tension Control
- Part Counter with Operator Alert System
- Programmable Operator Interface with Diagnostics
- Quick Release Reel Flanges
- Sample Strip with Programmable Cut Location
- Single Strip Operation
- Two Reel Capacity

### OPTIONS

- Operates with or without Paper Interleaf
- Dancer Loop Control
- High Speed / High Torque Motors
- Automatic Paper Stapler

The Wyndmaster 320 automatically transfers product from the full reel to the empty reel. The tangential feeder follows the reel fill diameter, carefully handling even the most delicate products. Designed for versatility, the Wyndmaster 320 offers fully programmable reel width changes and automatic changeover between underwind and overwind orientation.
